

HOW TO USE THE APP

A SIMPLE GUIDE

TRANSITION TO DIGITAL GPX READER FOR A GREENER FUTURE

Printing route notes on paper contributes to

deforestation and increases carbon

emissions associated with paper production

and transportation.

By going digital, we significantly reduce our

reliance on paper and contribute to the

preservation of our planet.

Thank you for being champions of change, and for joining us on this journey towards a more sustainable tomorrow.

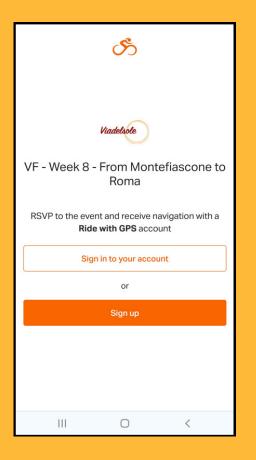

Your support is invaluable, and together, we

can make a meaningful impact on the well-

being of our planet..

HOW TO INSTALL

Viadelsole
Create a Ride with GPS account
Cleate a Ride with GFS account
First name
Last name
Email address
Email confirmation
Password
Can we send you email notifications about major site
updates and improvements?

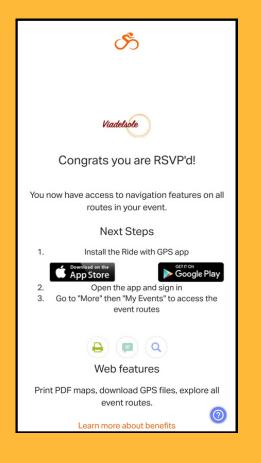

1

Click on the auto-approval link (the one you have received via email) and sign in to your **Ride** with GPS account.

2

If you don't have a **Ride with GPS** account, create a new one for free. You just need a valid email address.

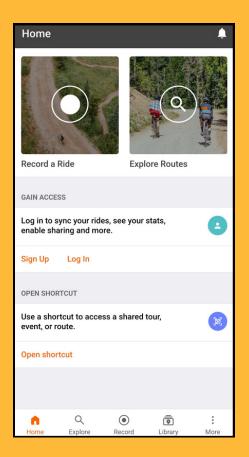

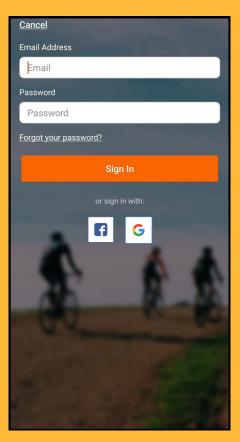

3

Once you have created a **Ride with GPS** account, you receive a confirmation message. Download and install the app.

HOW TO INSTALL

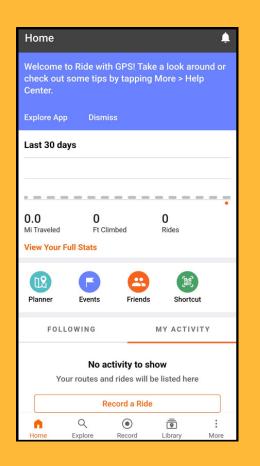

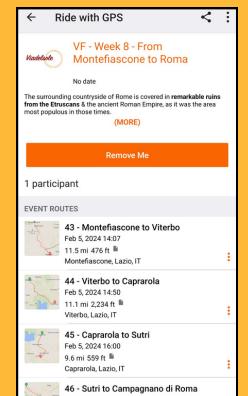

4

After the app is downloaded, launch the app and click **Log In**. Log into the app

with the same credentials you just set up

Enable **"Use metric units**" to set KM as the metric unit.

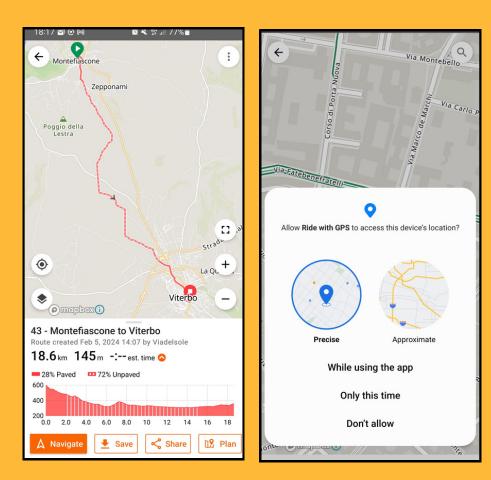

← Navigation
Navigation Chimes
Alert Distance Normal
Offline Storage Location Select where maps and routes are stored.
Advance cue warnings Announce next cue after completion of current cue
Nearing cue warnings Announce cue when approaching it
Imminent cue warnings Provide hints for the next cue when it is very close to the current cue
Audio alerts Emit tones to announce cues
Spoken alerts Speak directions from cues
Off-course alerts Play warning tone when off/on route

Click **Navigation** to verify that all options are enabled.

READY TO GO?

You can **download** your Ride with GPS tour routes for use offline to save your phone battery and/or avoid using data while walking. To download maps for use offline, tap the **Save button on the bottom row of the route screen, then tap Download for Offline**. It may take a few minutes to download. This works best when connected to a wifi network. Once your download is complete, you will have full access to that route and map even when you are not connected to a cellular network or wifi.

Once clicked on the route, press "**Navigate**" to start the turn-by-turn navigation.

Remember to allow Ride with GPS to access to the device's location. ACT TODAY FOR A SUSTAINABLE TOMORROW; EVERY SMALL ACTION TO SAVE OUR PLANET MAKES A MONUMENTAL DIFFERENCE IN SECURING A THRIVING FUTURE FOR ALL
